## How to disable Skype for Business from starting with your computer

The Yealink phones (especially the MP50) are adversely affected by Skype for Business. To disable Skype for Business from starting with the computer you need to set an option.

1. Click on the options menu for Skype for Business.

To add contacts, drag from another group or add from search.

4.

2. Make sure that the left panel shows the "Personal" settings, then uncheck the "Automatically start the app when I log on to Windows" option. Ok your changes.

Skype for Business - Options				×	
General Personal Contacts List	My account Sign-in address:	ebrow8923@llcc.edu	Advanced		
My Picture Phones Alerts IM	Start the app in	tart the app when I log on to Windows	Uncheck.		
	Exchange and Outlook integration				
Ringtones and Sounds	Note: Integration is controlled by your admin.				
Video Device	Sync contact in	fo between Skype for Business and Exchang	e		
Call Forwarding	Update my pres	sence based on my calendar information			
Recording	Show meeting subject and location to contacts in my Workgroup privacy relationship				
Skype Meetings	<ul> <li>Show my Out of Office info to contacts in my Friends and Family, Workgroup, and Colleagues privacy relationships</li> <li>Save IM conversations in my email Conversation History folder</li> </ul>				
	Location				
	Share my locati	on info with other programs I use			
	Show pictures				
	Note: Clearing the box turns off all pictures in the app including yours.				
	Show pictures of contacts				
			OK Cancel Help		

3. After you have confirmed the above dialog. You should also exit Skype.

This can be done from the tray menu. Open the tray menu, choose the Skype for Business icon and from the menu that opens click on Exit.
