
This is the time for students to keep moving forward in their education to become who they were meant to be.

Stay close to home, stay safe and keep moving forward!
WHY LLCC?

LLCC has been providing excellence and innovation in transfer and career education for more than 50 years, with thousands of successful alumni.

Reduced costs for a quality education.

For full-time students, tuition and fees at Illinois community colleges are approximately $10,000 less than a public university and over $35,000 less than a private institution.

Many LLCC students qualify for grants, financial aid and scholarships to assist with the cost of their education.

Courses transfer to four-year institutions for a fraction of the cost.

More than $366,000 in scholarships were awarded for 2020-2021 by the LLCC Foundation.

Students undecided on a major can explore various fields of study without incurring unnecessary debt.
Smaller class sizes contribute to a more personalized online experience.

LLCC offers hundreds of online general education courses that transfer to four-year colleges and universities, as well as many major-specific and career-focused courses.
Students interested in health care and hands-on careers should consider LLCC first.

LLCC is the leader in providing essential workers for our communities.

Private career training institutions are much more expensive and can lead to unnecessary student debt.

LLCC career programs are affordable and taught by experts in state-of-the-art facilities.

LLCC works with area employers to invest in the success of our students and the economic development of our region.
Students are not alone as they progress through their studies at LLCC, even if they take all of their courses online.

Classroom instruction, study spaces, computer labs and student activities adhere to current safety standards.

LLCC is committed to safety.
